

Medical Superintendent

As Medical Superintendent of Raipur Institute of Medical Sciences, I have the unique opportunity to participate in the nurturing and growth of a newly started medical college and hospital.

I bring to this institute more than 30 years of experience in Medical Administration. We at RIMS want to create an environment where healthcare, medical education, and research go hand-in-hand and mutually invigorate and contribute to each other.

I look forward to being a part of this vibrant institute and contribute to its mission of providing quality healthcare in this region as well as the country.

Regards,

Dr. SL Adile,

MS Ophthalmology

Medical Superintendent, Raipur Institute of Medical Sciences
